

Make unique creations in seconds with a moldmaker that fits on your worktop

Key Benefits

Custom molds, fast

No more buying the same molds as every other chef from the same supplier as every other chef. Create your own signature molds right from your kitchen in a fraction of the time (and cost) of getting bespoke molds made. Your own unique molds, made on demand.

Compact size for kitchens

With a footprint smaller than the average microwave, the Formbox is compact and fits perfectly on your worktop and can easily be stowed away. Wipe clean surfaces also enable easy cleaning of the machine.

Create molds from objects using sculpted materials - potatoes

Use your culinary skills to shape a variety of materials into shapes for the FormBox. Potatoes, pumpkin, dough - anything that can be carved can be sculpted into a shape for the FormBox and made into a mold in seconds. Alternatively, use owl fruits and vegetables to make exact replica molds, ready to be cast in anything like chocolate, jelly or foams.

Everything you need to get started

The FormBox comes with everything you need to get started right out of the box -Setting up the machine is incredibly easy and takes less than five minutes - just add your ideas and your ingredients.

3D design support

Mayku design support staff are always on hand to help you make whatever creation you want. Just sign up to get all the design advice, material suggestions and mold making expertise that you need.

Make Short runs of delicacies at low cost

Want to test out a mold before committing to full scale production or produce a limited edition run of bon bons for an event or season? Use the FormBox to create a small set of molds to test ideas and produce short runs of your creations in next to no time.

How it Works

1

Make your design and 3D print your template.

2

Place it in the FormBox and copy it in seconds.

3

Take it out and make dozens more in minutes.

4

Or use it as a mold to cast hundreds of versions in a range of materials.

What have we been making?

The possibilities are endless!
